Assuming that the rates of taxation will remain the same, he estimates the probable receipts from internal revenue for next year at \$150,000,000. This is \$15,000,000 less than last year's estimate and \$11,000,000 less than the actual yield last year.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature to do its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. ### RICH DEPOSITS OF GOLD,

Discovered in Randolph County, Alabama.

A party of prospectors headed by Prof. Samuel Aughey, former superintendent of the Pinetucky mine, and Col. E. P. Snow, an expert mining engineer of Wyoming, have struck an exceedingly rich body of ore in Randolph County, Alabama, in what is described by Prof. Smith, State geologist, as the gold belt.

The party were attracted to the field by very rich pinnings that were made in the vicinity on surface deposits in which the section arounds, and it was in tracing these deposits to their source that Colonel Snow opened up the lode.

The Goldberg Mining Company has been incorporated to operate the claim, with Col. E. P. Snow as president, Professor Samuel Aughey as vice president, and Mr. J. E. Fiscus as secretary and treasurer.

The capital stock of the company is one million dollars, with SHARES AT ONE DOLLAR EACH.

The company are now offering FIFTY THOUSAND SHARES AT TEN CENTS PER SHARE, full paid and non-assessable; this is done in order to realize additional capital to commence operations at once.

Contracts have been closed for a twenty five ton plant which will be in operation within the next forty days.

The field is attracting much attention, capitalists are investigating its resources, and prospectors are flocking in.

Regarding the richness of the property, an incline shaft has been sunk to the depth of over 100 feet, with gratifying results, showing a constant improvement both in grade and size of ore body as it deepens.

The ore body already opened up is practically inexhaustable, and pans from \$10 to \$20 and as high as \$90 to the ton, showing an average of over twenty five dollars.

An idea can be formed of the value of the property from the opinion of experts who have visited the field, to the effect that, with the necessary machinery, the company is capable of paying a dividend of 25 per cent. per annum on its total capital, which would represent to investors at present 250 per cent. profit on their investment, and stock that will at least be worth three times its face value: THREE DOLLARS PER SHARE.

We leave it to the public to judge of the safety of the investment and the immense amount that can be realized, in a short time, on a small investment at present. We feel safe in saying that from the present indications, the richness of the ore and increasing size of the ore body, development will no doubt disclose wealth that will surpass our most sanguine expectations, and we have every reason to believe that as soon as the first mill run is made, which will be inside of sixty days, this stock can not be bought for less than its face value—ONE DOLLAR PER SHARE.

Do not let the opportunity slip by. Secure your stock now at TEN CENTS. This is positively the only chance. Apply at once as this stock will soon be taken.

All orders for stock must be accompanied by remittance to cover the amount—Ten Cents for each share. Upon receipt of same we will mail you your certificate of stock.

Correspondence solicited. Prospectus forwarded free on application. Address all communications to THE GOLDBERG MINING CO., No. 2 South Broad Street, Atlanta Ga. 489-6t.
